

**VO:** *Understated, almost deadpan*

**Cybersecurity, as you know it, is finished.**

**Endless innovation is here. Now available from anyone. Anywhere. Instantly.**

**We've reinvented security.**

**Again.**

**And it runs on the world's only security operating platform.**

**The age of cobbled-together security is done. Reinventing your infrastructure over and over – is over.**

**You can now deploy frictionless, seamlessly integrated security, delivered from the cloud as apps.**

**Unlimited plug and play protection. Drag and drop innovation.**

**App developers everywhere have instant access to tens of thousands of organizations and over a decade of aggregated threat data and telemetry.**

**We've reshaped the future of security.**

**And it's here today.**

**The Application Framework from Palo Alto Networks.**
